SUMMARY

Full Stack Developer with hands-on experience in both **frontend and backend development**. Skilled in building responsive user interfaces using **React.js** and **Next.js**, and developing secure, scalable backend APIs with **Python, Django, and Django REST Framework**. Comfortable working with databases like **MongoDB** and **PostgreSQL**, and experienced in connecting frontend to backend using **Axios** and RESTful API standards. Passionate about writing clean code, solving real-world problems, and contributing to fast-paced development teams.

EDUCATION

Software Engineering

Muet • Jamshoro • 2024

SKILLS

Languages: Python, JavaScript, AI/ML

Backend: Django, Django REST Framework, FastAPI

Databases: PostgreSQL, MySQL, MongoDB

Frontend: React.js, Next.js, HTML, CSS, Bootstrap

Tools & Others: Git, GitHub, JWT Auth, AJAX, Postman

EXPERIENCE

AI Engineer

Vital analytics

July 2025 - August 2025, remote

- An **AI Engineer** uses Python to build, train, and deploy AI/ML models like classification, regression, clustering, and deep learning. They work on data preprocessing, model testing, and real-world integration, using techniques such as supervised, unsupervised, reinforcement, and deep learning for various applications

Backend Developer Intern – Intern.pk

Intren.pk

June 2024 - July 2024

- Worked on Django REST APIs, JWT authentication, and API testing with Postman. Integrated frontend using Axios and followed clean backend practices.

PROJECT

Doctor Track (Final Year Project)

- **Tech Stack:** React.js, Django, Django REST Framework, PostgreSQL.
- Built a full-stack medical tracking system with **role-based access** for doctors, patients, and admins. Developed a secure Django REST API for appointments and records, and a responsive React UI with efficient state management.

E-Commerce Website

rasoolbux.pythonanywhere.com/

- **Tech Stack:** React.js, Django, Django REST Framework, PostgreSQL, AJAX.
- Created a shopping platform with product listing, cart, and checkout features. Used **AJAX** for real-time cart updates. Handled user auth, order management, and API integration for frontend-backend communication.

Blog Website

github.com/RasoolBux123/Blog_website.git

- **Tech Stack:** React.js, Django, Django REST Framework.
- Developed a blogging system with **post creation, editing, and commenting**. Admins can moderate content, manage categories/tags. Connected frontend to secure Django APIs using Axios and REST standards.

CERTIFICATIONS

Front-end-developer | SukKur IBA

- Learned HTML, CSS, JS fundamentals and responsive design.
